📍 Laabidi Mohamed, Annaba, Algeria

SUMMARY

Final-year Computer Science student at the University of Annaba, passionate about software engineering and entrepreneurship. Currently developing a Print-on-Demand platform as a graduation project, integrating web development, product customization and designing tools, and secure online payments. Actively seeking to earn the "Label Projet Innovant" to transform this academic initiative into a real startup. Strong team player, self-learner, and eager to apply my technical and creative skills to solve real-world problems.

EXPERIENCE

Detectia Report – Academic Originality

Submitted a research document for originality analysis using Detectia. Achieved a low similarity score (8.8%), demonstrating high authenticity and proper citation practices.

PrintyDZ Platform

04/2024 - Present

Developing a local Print-on-Demand web application connecting buyers and sellers. Features include custom product design, order management, chat system, and PayPal, CIB payment integration. Built with the most modern technologies.

EDUCATION

Computer Science

09/2022 - 07/2025

Badji Mokhtar University - Bachelor's Degree (Licence)

Relevant coursework: Artificial Intelligence, Object-Oriented Programming, Software Engineering, Data Structures, Web Development, Informations security.

CERTIFICATES

Certificate of formation

06/2025 - Present

UBMA incubator

Certificate proving participation in training courses organized at the university incubator

Detectia Similarity Certificate

06/2025 - Present

UBM Annaba

It has been accredited by more than 37 Algerian academic and research institutions and is a certificate of scientific integrity related to the print-on-demand project.

Certificate of incubation of the innovative project

06/2025 - Present

UBMA Incubator

It is a certificate proving that the innovative project has been localized in the university business incubator.

SKILLS

Tools: Git, Figma, VS Code	Intermediate	Programming: C++, JavaScript, Python, C language, java	Advanced
Databases: PostgreSQL, MySQL, SQL	Advanced		
Web: HTML, CSS, Node.js, Express.js	Advanced		

LANGUAGES

Russie	Basic	French	Intermediate
English	Fluent	Arabic	Native
